RISTORANTE
I PORTICI

HALLSTEIN [AUSTRIA]

Legends tell that Hallstein Water possesses regenerative properties, but also a disturbing side: those who use it without respect risk being overwhelmed by its primordial power.

still | 50 euro

ISKLD [DENMARK]

ISKLD (Iskilde means 'cold spring' in Danish) comes from an unspoiled area south of the Åbenrå Fjord in Denmark.
The water comes from an artesian spring and has been renowned for its taste and drinkability since 1561, when Duke Hans the Elder of Schleswig-Holstein claimed it after tasting it at a local inn.

still, sparkling | 25 euro

TAU [GALLES]

Tau was created in 2003 to satisfy the demand of a bottled water that could meet today's standards thanks to clean and essential lines, very refined in their simplicity. It is not by chance that the name TAU means, in the ancient Welsh language, "to be silent".

still, sparkling | 17 euro

CHIARELLA [ITALY]

The oligomineral water of the Chiarella Spring, born in the green valley of Plesio, above Menaggio, 750 meters above sea level, protected from any kind of contamination.

still, sparkling | 16 euro

PERLAGE [POLAND]

A mineral water unique in its category. The Perlage method is similar to the one applied in the production of the best sparkling wines and champagne.

sparkling | 12 euro

CERELIA [ITALY]

Located in the picturesque mountains of the Tuscan-Emilian Apennines, in the heart of Cereglio in the province of Bologna, this water was discovered in 1902 and is a natural jewel that gives life to the finest oligomineral water.

75 cl still, sparkling | 7 euro

PERRIER [FRANCE]

Perrier is a natural French mineral water, added with carbon dioxide, which springs from a water sources that has been called Perrier since 1903. The water source is located in Vergèze, 15 km from Nîmes.

20 cl sparkling | 7 euro

PANNA [ITALY]

The Acqua Panna natural mineral water flows in Tuscany among centuries-old rocks, where it is enriched with precious minerals in a perfect balance of taste, a gift of nature that is carefully preserved.

75 cl still | 5 euro

SAN PELLEGRINO [ITALY]

The S.Pellegrino mineral water travels for 30 years through the rocks before returning to the surface in the water sources at the foot of the Italian Alps. Along the way, S.Pellegrino Water is naturally enriched with minerals that give it a unique taste and qualities.
